

Workers' struggle for stopping dismisses and payment of retroactive wages!

The Capitalists and their regime, dismiss workers in groups and reject paying wages and other subsidiaries. Workers in factories and companies round Iran, are struggling openly against such a reactionary policy.

Yesterday, there were workers of Poshineh Waving who gathered in front of the Governor office, the day before that there were workers of Pipe Production in Khozestan province who blocked Ahwaz- Khoramshahr Road and today, protested the workers of Suger Cube Cutting factory and Persi Gaz.

This morning, the workers of Suger Cube Cutting of Desir in province of Kerman, gathered at the factory and demanded payment of their retroactive wages. They have not received any payment for the last two months.

Mean while, the dismissed workers of Persi Gaz, once again, gathered in front of factory building and demanded stop of dismissals and re- employment of all the workers.

There is no other alternative for workers rather than intensifying their protests and struggle. Workers, can only win over capitalist and their regime by unity and struggle. There is no other way how they can stop dismissal and payment of retroactive wages.

Overthrow the Islamic Republic Regime- Establish Soviet State

**Down with capitalism Long live socialism
Work – Bread – Freedom a soviet state**
