

Protest gathering of workers engaged in Poshineh Waving and Iran Papirous

More than 720 workers engaged in Poshineh Waving gathered in front of Ghazvin's Governor Office in protest against actions taken by the management and not payment of their retroactive wages and subsidiaries. The management not only has not paid the wages of engaged workers for 5 months but also did not pay any retirements for the same period to the retired workers. Retired workers experience an uncertain situation, nor does the management neither the Social Service Office take no action for any payment.

Today also tens of workers engaged in Iran Papirous in city of Saveh gathered and protested against shut down of the factory and actions taken by management by which workers are forced to random. Workers demanded re-opening of the factory. The workers threatened that if the management does not open the factory they will go to the factory on 30th of September and will open the factory themselves.

The Organization of Fedaiyan (Minority) supports the struggle and demands of workers in Poshineh Waving and Iran Papirous and demands an immediate consideration.

Overthrow the Islamic Republic Regime- Establish Soviet State

**Down with capitalism Long live socialism
Work – Bread – Freedom a soviet state**
